

#### **Fellowship Program Benchmarking Survey Results**

2019 Survey

Survey Open February 3-February 21, 2020

Distributed to 237 Pulmonary, Critical Care, and PCCM Program Directors

Response rate: n = 116 (49%) Completion rate: n = 104 (44%)

2020 Survey

Survey Open December 21, 2020 -February 1, 2021

Distributed to 245 Pulmonary, Critical Care, and PCCM Program Directors

Response rate: n = 129 (53%) Completion rate: n = 107 (44%)

### **SECTION 1: PROGRAM CHARACTERISTICS & LEADERSHIP**

1. Please indicate which type of fellowship program(s) you direct, as designated by the ACGME. If you direct a PCCM program with a pulmonary or CCM track available within that program, select combined PCCM only. If the ACGME officially recognizes multiple programs (NOT tracks), select all that apply (choose all that apply)

	2019	2020
	120 (100%)	129 (100%)
a. Pulmonary and Critical Care Medicine (PCCM)	95 (79.2%)	103 (79.8%)
b. Critical Care Medicine ONLY	18 (15%)	18 (14%)
c. Pulmonary Medicine ONLY	7 (7%)	8 (6.2%)

Display if PCCM is selected as "Yes" in Q 1.

2. If your program is a combined PCCM fellowship, how often have you offered occasional positions for:

Fellowship		a. Never	b. Rarely	c. Sometimes	d. Frequently	e. Always (Established track)
2.1. Pulmonary Medicine	2019	68 (76.4%)	9 (10.1%)	6 (6.7%)	1 (1.1%)	5 (5.6%)
	2020	68 (71.6%)	16 (16.8%)	3 (3.2%)	1 (1.1%)	7 (7.4%)
2.2. Critical Care Medicine	2019	44 (49.4%)	23 (25.8%)	10 (11.2%)	3 (3.4%)	9 (10.1%)
	2020	48 (50.5%)	18 (18.9%)	7 (7.4%)	4 (4.2%)	18 (18.9%)

#### 3. How many graduates did you have in 2019?

[drop down menu 0-20 and >20]

	2019	2020
Number of Graduates		
0	8 (7.4%)	11 (9.7%)
1	5 (4.6%)	4 (3.5%)
2	19 (17.5%)	18 (15.9%)
3	16 (14.8%)	12 (10.6%)
4	18 (16.7%)	19 (16.8%)
5	10 (9.3%)	14 (12.4%)
6	12 (11.1%)	12 (10.6%)
7	9 (8.3%)	10 (8.8%)
8	6 (5.6%)	6 (5.3%)
9	4 (3.7%)	1 (.9%)
10	0	1 (.9%)
11	1 (0.9%)	0
12	0	5 (4.4%)
13	0	0
14	0	0
15	0	0
16	0	0
17	0	0
18	0	0

19	0	0
20	0	0
>20	0	0
Total	106 (100%)	112 (100%)

4. As of July 1, 2019, what is the total number of Fellows in each of the following groups, excluding sub-sub-specialty fellows (e.g. IP and transplant fellows).:

Year 1: [drop down menu 0-20 and >20]
Year 2: [drop down menu 0-20 and >20]
Year 3: [drop down menu 0-20 and >20]

Beyond year 3 (e.g. Research Fellows): [drop down menu 0-20 and >20]

					J. Larop aouin						
# of Fellows		0	1	2	3	4	5	6	7	8	9
Year 1	2019	3 (2.8%)	6 (5.6%)	16 (14.8%)	19 (17.6%)	18 (16.7%)	14 (13%)	6 (5.6%)	9 (8.3%)	11 (10.2 %)	4 (3.7%)

5. Mark the one response that best reflects your allocated salary support (also referred to as release or protected time) as Program Director for non-clinical, administration of the fellowship program?

	2019	2020
	N=106 (100%)	113 (100%)
a. None (0 hours per week)	4 (3.8%)	5 (4.4%)
b. 1-5% (less than 2 hours per week)	1 (0.9%)	7 (6.2%)
c. 6-10% (>2-4 hours per week)	14 (13.2%)	7 (6.2%)
d. 11-20% (>4-8 hours per week)	29 (27.4%)	33 (29.2%)
e. 21-30% (>8-12 hours per week)	39 (36.8%)	47 (41.6%)
f. 31- 40% (>12-16 hours per week)	15 (14.2%)	10 (8.8%)
g. 41-50% (>16-20 hours per week)	4 (3.8%)	4 (3.5%)
h. >50% (>20 hours per wee)	0	0

6. Regarding your response to the previous item (question 5), to what extent do you agree that the allocated support is sufficient for the scope of Program Director responsibilities?

	Response	Strongly Disagree	Disagree	Neither Disagree or Agree	Agree	Strongly Agree
2019	106 (100%)	16 (15.1%)	33 (31.1%)	16 (15.1%)	28 (26.4%)	13 (12.3%)
2020	113 (100%)	15 (13.3%)	31 (27.4%)	19 (16.8%)	38 (33.6%)	10 (8.8%)

#### 7. Indicate the number of Assistant and/or Associate Program Directors for your fellowship?

Drop down menu with, 0 -5 and >5 If 0 is selected skip to Q.11

	2019	2020
	106 (100%)	113 (100%)
0	17 (16.0%)	15 (13.3%)
1	53 (50.0%)	59 (52.2%)
2	19 (17.9%)	22 (19.5%)
3	9 (8.5%)	9 (8%)
4	6 (5.7%)	3 (2.7%)
5	1 (0.9%)	4 (3.5%)
>5	1 (0.9%)	1 (0.9%)

8. Mark the one response that best reflects the total allocated salary support (also referred to as protected or released time) for all Associate Program and/or Assistant Director for non-clinical, administrative responsibilities for the fellowship program?

	2019	2020
	89 (100%)	95 (100%)
a. None (0 hours per week)	31 (34.8%)	31 (32.6%)
b. 1-5% (less than 2 hours per week)	21 (23.6%)	24 (24.3%)
c. 6-10% (>2-4 hours per week)	21 (23.6%)	23 (24.2%)
d. 11-20% (>4-8 hours per week)	8 (9.0%)	11 (11.6%)
e. 21-30% (>8-12 hours per week)	3 (3.4%)	4 (4.2%)
f. >30% (>12 hours per week)	4 (4.5%)	2 (2.1%)
g. I do not have an APD	1 (1.1%)	0

9. Regarding your response to the previous item (question 8), to what extent is the allocated support sufficient for

the scope of APD responsibilities?

	Response	Strongly Disagree	Disagree	Neither Disagree or Agree	Agree	Strongly Agree
2019	89 (100%)	29 (32.6%)	23 (25.8%)	20 (22.5%)	13 (14.6%)	4 (4.5%)
2020	95 (100%)	25 (26.3%)	30 (31.6%)	17 (17.9%)	18 (18.9%)	5 (5.3%)

10. Mark the one response that best reflects the source of support for the Associate Program Director's administrative responsibilities.

	2019	2020
	89 (100%)	95 (100%)
a. No salary, protected or release time support	9 (10.1%)	32 (33.7%)
b. Salary support allocated to Program Director, with a portion allocated to the Associate/Assistant Program Director, at the PDs discretion.	26 (29.2%)	20 (21.1%)
c. Separate source allocated to Associate Program Director, independent of that allocated to Program Director	18 (20.2%)	35 (36.8%)
d. I don't know.	36 (40.4%)	8 (8.4%)

11. Do your Core Faculty receive salary/protected or time support for fellowship responsibilities (e.g., teaching, supervision, advising)?

	2019	2020
	105 (100%)	110 (100%)
a. No	80 (76.2%)	89 (80.9%)
b. Yes	21 (20%)	20 (18.2%)
c. I don't know	4 (3.8%)	1 (.9%)

#### 12. To what extent do you agree that recruiting and retaining effective Core Faculty for your fellowship program is difficult because of insufficient support (e.g., salary and/or protected or release time) for carrying out fellowship responsibilities?

	Response	Strongly Disagree	Disagree	Neither Disagree or Agree	Agree	Strongly Agree
2019	105 (100%)	6 (5.7%)	17 (16.2%)	32 (30.5%)	36 (34.3%)	14 (13.3%)
2020	110 (100%)	6 (5.5%)	24 (21.8%)	33 (30%)	30 (27.3%)	17 (15.5%)

#### 13. What is range of total months of protected research time does your program provide fellows for the duration of their training program, excluding an extra research year?

Min [Drop down menu with, 0 Months – 18 Months and >18 Months]

Max [Drop down menu with, 0 Months – 18 Months and >18 Months]

Max [Drop down mer	· · · · · · · · · · · · · · · · · · ·	)19		20
Number of Months	Min	Max	Min	Max
0	10 (9.5%)	6 (5.7%)	10 (9.1%)	5 (4.5%)
1	8 (7.6%)	1 (1.0%)	13 (11.8%)	1 (.9%)

Total	105 (100%)	105 (100%)	110 (100%)	110 (100%)

#### 14. What % of fellows extend their fellowship beyond three years for additional research training.

		, ,
	2019	2020
Total	105 (100%)	110 (100%)
a. None	69 (65.7%)	71 (64.5%)
b. 0-25%	26 (24.8%)	28 (25.5%)
c. 26-50%	3 (2.9%)	2 (1.8%)
d. 50-75%	2 (1.9%)	4 (3.6%)
e. 76-99%	5 (4.8%)	4 (3.6%)
f. 100%	0	1 (.9%)
g. All fellows are required to do an additional research year	0	0

#### **SECTION 2: ICU STAFFING**

The items in this section pertain to required, in-house ICU responsibilities, excluding any elective moonlighting.

# 15. For each training year, select the response that best estimates the typical <u>total</u> nights of fellows' <u>required in-house</u> ICU coverage.

Fellowship Year		0	1-7	8-14	15-21	22-28	29-35	36-42	43-48	>48	Total
1	2019	35 (33.3%)	11 (10.5%)	15 (14.3%)	7 (6.7%)	9 (8.6%)	8 (7.6%)	9 (8.6%)	3 (2.9%)	8 (7.6%)	105 (100%)
1	2020	28 (25.7%)	12 (11%)	9 (8.3%)	12 (11%)	13 (11.9%)	12 (11%)	12 (11%)	4 (3.7%)	7 (6.4%)	109 (100%)
2	2019	28 (26.7%)	12 (11.4%)	16 (15.2%)	12 (11.4%)	12 (13.3%)	10 (9.5%)	7 (6.7%)	1 (1%)	5 (4.8%)	105 (100%)
2	2020	33 (30.3%)	11 (10.1%)	10 (9.2%)	13 (11.9%)	11 (10.1%)	13 (11.9%)	12 (11%)	2 (1.8%)	4 (3.7%)	109 (100%)
	2019	44 (41.9%)	8 (7.6%)	20 (19%)	11 (10.5%)	11 (10.5%)	10 (9.5%)	2 (1.9%)	1 (1%)	3 (2.9%)	105 (100%)
3	2020	43 (39.4%)	12 (11%)	14 (12.8 %)	11 (10.1%)	11 (10.1%)	9 (8.3%)	6 (5.5%)	1 (.9%)	2 (1.8%)	109 (100%)

## 16. Do fellows receive an hourly wage beyond their standard salary for staffing required in-house shifts?

	2019	2020
Total	105 (100%)	109 (100%)
a. Not Applicable, my fellows are not required to perform in-house nights. (skip to question 19)	24 (22.9%)	23 (21.1%)
b. No	73 (69.5%)	75 (68.8%)
c. Yes	8 (7.6%)	11 (10.1%)

### 17. How do faculty supervise fellows during a required in-house shift?

Supervision Method		a. Not Supervised	b. Faculty in-house for supervision	c. Faculty supervise by telephone ONLY	d. Faculty supervise by phone (and come in-house as needed based upon this supervision)	e. Not applicable	Total
Year 1	2019	0	34 (38.6%)	4 (4.5%)	39 (44.3%	11 (12.5%)	89
	2020	1 (1.1%)	44 (47.3%)	4 (4.3%)	39 (41.9%)	5 (5.4%)	93
Year 2	2019	0	39 (43.8%)	3 (3.4%)	43 (48.3%)	4 (4.5%)	89
real 2	2020	0	44 (48.9%)	2 (2.2%)	36 (40%)	8 (8.9%)	90
Year 3	2019	0	28 (32.2%)	3 (3.4%)	39 (44.8%)	17 (19.5%)	79
	2020	0	36 (40.4%)	2 (2.2%)	35 (39.3%)	16 (18%)	89

## 18. Do faculty receive additional compensation for supervising fellows during required in-house shifts?

	2019	2020
Total	80 (100%)	86 (100%)
a. No	70 (87.5%)	74 (86%)
b. Yes	10 (12.5%)	12 (14%)

#### **SECTION 3: PROCEDURAL COMPETENCY**

19. Of your 2019 final-year class, how many fellows met program standards performing each of the following procedures independently and competently by graduation? (Choose one per row)

Procedure		0	1-25%	26-50%	51-75%	76-99%	100%	Total
19.1. Bedside Tracheostomy	2019	51 (63.7%)	8 (10.0%)	3 (3.8%)	1 (1.3%)	4 (5.0%)	13 (16.3%)	80
	2020	46 (51.7%)	15 (16.9%)	2 (2.2%)	7 (7.9%)	3 (3.4%)	16 (18%)	89
19.2. Critical care ultrasound	2019	13 (14.8%)	8 (9.1%)	9 (10.2%)	2 (2.3%)	4 (4.5%)	52 (59.1%)	88
	2020	14 (15.4%)	6 (6.6%)	5 (5.5%)	4 (4.4%)	4 (4.4%)	58 (63.7%)	91
19.3. EBUS	2019	15 (16.5%)	5 (5.5%)	8 (8.8%)	4 (4.4%)	5 (5.5%)	54 (59.3%)	91
	2020	17 (17.2%)	7 (7.1%)	4 (4%)	6 (6.1%)	12 (12.1%)	53 (53.5%)	99
19.4. Insertion of indwelling pleural	2019	27 (32.1%)	14 (16.7%)	5 (6.0%)	4 (4.8%)	6 (7.1%)	28 (33.3%)	84
catheters (i.e. PleurX catheter)	2020	33 (36.3%)	6 (6.6%)	6 (8.8%)	7 (7.7%)	8 (8.8%)	29 (31.9%)	91

20. For each procedure listed below, mark whether each assessment method (columns) is consistently used to assess fellow competency. Remove yes no and on check all that apply in

enow compet	ciicy: itciii	ove yes no and on check	k an that appro	7 111		
		Minimum number of procedures performed	Global assessment via reported impressions without direct observation	Global assessment based on a direct observation	Written Knowledge Test	Itemized Observed Performance Checklist

### 21. For each of the procedures listed below, to what extent do you have:

1) sufficient faculty expertise and

2) sufficient dedicated time to teach and supervise your fellows to achieve competent, independent performance by graduation?

(For each row, mark one, best response for Expertise and for Time.) Make this a yes no only.

Procedure		Expe	Expertise Time		me	Total
		No	Yes	No	Yes	
21.1. Bedside Tracheostomy	2019	33 (31.7%)	71 (68.3%)	104 (100%)	50 (49.0%)	104 (100%)
	2020	20 (18.3%)	89 (81.7%)	43 (39.4%)	66 (60.6%)	109 (100%)
21.2. Critical care ultrasound	2019	7 (6.7%)	97 (93.3%)	27 (26%)	77 (75%)	104 (100%)
	2020	10 (9,2%)	99 (90.8%)	23 (21.1%)	86 (78.9%)	109 (100%)

21.3. EBUS	2019	8 (7.7%)	96 (92.3%)	15 (14.4%)	89 (85.6%)	104 (100%)
	2020	11 (10.1%)	98 (89.9%)	17 (15.6%)	92 (84.4%)	109 (100%)
21. 4. Insertion of indwelling pleural catheters (i.e. PleurX catheter)	2019	13 (12.5%)	91 (87.5%)	34 (32.7%)	70 (67.3%)	104 (100%)
	2020	17 (15.6%)	92 (84.4%)	28 (25.7%)	81 (74.3%)	109 (100%)

22. To what extent do you agree that the ABIM should include Endobronchial Ultrasound –guided biopsy as a required procedure for Pulmonary board eligibility.

	Response	Strongly Disagree	Disagree	Neither Disagree or Agree	Agree	Strongly Agree
2019	104 (100%)	89 (8.7%)	21 (20.2%)	31 (29.6%)	27 (26%)	16 (15.4%)
2020	109 (100%)	14 (12.8%)	29 (26.6%)	24 (22%)	28 (25.7%	14 (12.8%)

## SECTION 4: EBUS SPECIFIC QUESTIONS (Display only if 1-100% is selected in 19.3)

23. Who trains your fellows in EBUS? (choose one)

	2020
Total Response	81 (100%)
23.1. A board-certified interventional pulmonologist	25 (30.9%)

#### **SECTION 6: SLEEP EDUCATION**

#### 31, Indicate which settings/methods listed below fellows receive clinical training in sleep medicine

Educational Setting/Method	2019	2020
a. Didactic teaching (classroom)	85 (29.5%)	84 (28.7%)
b. Sleep lab time, reading sleep studies	56 (19.3%)	61 (20.8%)
c. Sleep patients in longitudinal clinic	66 (22.5%)	61 (20.8%)
d. Dedicated sleep medicine blocks	61 (21.1%)	63 (21.5%)
e. Other: Please describe setting and typically frequency for fellows:	13 (4.6%)	12 (4.1%)
f. None	10 (3.2%)	12 (4.1%)

#### 2019 Other Responses

- 2 dedicated sleep medicine blocks are in the 3year schedule for fellows
- Multidisciplinary Sleep Journal Club
- 2-3 weeks per year=6-8 week total
- 1 month during fellowship, 6 didactic sessions per year
- Weekly conference
- 1-2 weeks per year

#### 2020 Other Responses

- weekly sleep clinic during two VA rotations during F1 year-8 clinics total
- Attend sleep clinic during subspecialty clinics block
- fellow sleep clinics at the VA
- 1 month sleep rotation
- 1 month
- required sleep medicine rotation

- One week in sleep clinic and lab
- 10 sleep clinics during one rotation
- Sleep elective
- Sleep clinic, 1-2x/week during 4-week clinic block
- Sleep patients in dedicated sleep clinic
- Not applicable
- Attend 6 sleep conferences per
  - weekly review
  - Outpatient Clinic during their month-long outpatient rotations
  - Sleep clinic ~10 sessions with sleep faculty
  - 2-week blocks/year
  - · multidisciplinary sleep grand rounds
  - sleep elective, up to 2 weeks

## 32. What is the typical number of total months of sleep training that fellows complete by the end of their required program? Drop down menu with:0 <1, 1, 2, 3, 4, 5, >5

#### **SECTION 7: FELLOWSHIP APPLICATION and ORIENTATION**

#### 33. Which of the following best describes how you review applicants for your fellowship program?

	2019	2020
Total Responses	104 (100%)	107 (100%)
a. Universal Application form through ERAS only	99 (95.2%)	100 (93.5%)
b. Institution-specific application form only	2 (1.9%)	4 (3.7%)
c. Universal Application <u>and</u> Institution-specific (supplemental) application form	3 (2.9%)	3 (2.8%)

### 34. Check the appropriate box if either your institution or program has orientation activities starting before July 1:

Orientation		On-line	In person	No orientation before July 1	Total
Institution	2019	9 (8.7%)	33 (32%)	61 (59.2%)	103 (100%)
	2020	19 (17.8%)	34 (31.8%)	54 (50.4%)	107 (100%)
Program	2019	1 (1.0%)	17 (16.5%)	85 (82.2%)	103 (100%)
	2020	5 (4.7%)	23 (21.5%)	79 (73.8%)	107 (100%)

35. Which of the following start dates do you most favor?

	2019	2020
a. July 1st, with no changes in IM residency start and end dates	48 (42.5%)	57 (51.4%)
b. July 1st- only if an earlier universal IM residency start date is set, so residents graduate by June 16 or 23	44 (38.9%)	42 (37.8%)
c. July 7	17 (15%)	7 (6.3%)
d. July 14	3 (3.5%)	5 (4.5%)

## 36. Please provide any comments on the potential benefits or difficulties associated with a mandatory start date for fellowship programs after July 1<sup>st</sup>

#### 2019 Comments

- · Benefits--time for orientation, fellows to relocate; difficulties--visa holders have to leave country
- Would prefer that new fellows start at the same time as new residents. I think this would be the best for both classes
- I favor later start if that also means pushing back the end date to July 3 years later for the full 36 months. I would be willing to start as late as Aug 1. My concerns would be for the incoming fellow ensuring that they have budgeted for the gap of up to two weeks where they are unlikely to be paid for that time or have healthcare coverage. Alternatively, advocating that for this gap time either the new or old institution cover those things.
- Not realistic
- This is most fair to IM residencies
- Would take three years plus to phase in creating increased workload
- Will need to time in advance so that current fellows know they will need a later stop date (later than 6/30)
- Cross coverage issues
- Extended coverage time until the new fellows start which is already a burden. We orient from July 1-7.
- We continuously encounter problems with incoming fellows that don't get paid for orientation activities because of J1 visa and they are still under contract from their residency until June 30.
- Services would get uncovered as 3 yr fellows are leaving.
- Thus far, we have had no issues with fellows arriving a few days prior to July 1, but if we do, we would simply push back the start/orientation date as needed.
- Orientation and workshops/simulation are needed. I think the first week of starting fellowship should be dedicated for that.
- Avoid July 4th, additional moving time for new fellows
- Manpower issues
- May be issues with h1 visas
- Just the incoming fellows having time to move and get settled before starting.
- Orientation will run later in to the month- we have a 2 week "boot camp" for critical care
- Clinical care during the gap between the end of residency and beginning of fellowship
- Many residents are committed to residency program until June 31st, making a July 1 start date challenging especially if they are
  moving.
- We are not a large program and once graduating fellows leave, there is "missed opportunities for education". Also, a gap in pay could be extremely hard for fellows as well as potential visa issues
- Fellows starting the F3 year often enroll in classes that start in the first week of July, so aren't available to cover if new fellows haven't yet started.
- Graduating fellows expect to finish and leave by June 30. Need new fellows to replace them so patient care can continue.
- Coverage from graduating classes.
- Burden of coverage on other fellows.
- July 1st is just predictable and everyone is on the lookout for new trainees. If the starting date is different between programs then we will just stretch the headache for longer.
- July 1st makes it easy to transition from other programs. Before July 1st is unfair to previous program.
- I would have problems with coverage by my upper years who start classes in early July if the start date for first years gets pushed back too late.
- We still need to orient fellows and it would shorten the amount of time we have to train them.
- As long as fellowship end dates correlate with the start dates i.e. fellowship end date extended to July 6 if start date is July 7 much like surgical fellowships even an Aug 1 start date would be fine as long as end dates are July 31).
- I prefer July 1 start date; don't care if IM residencies end early or not
- Lapses in training for international medical graduates are an issue; if this were not the case then July 14th would allow residents to finish their residencies on June 30th with time to move and get oriented for fellowships. They would then graduate later in July but not a problem if all fellowships follow the same schedule.
- I explained to the newly matched fellows that they should expect to find coverage the week before to July for hospital wide orientation. But I have found that this is getting more lengthy and it may be more difficult to do before July 1.
- None of the first-year fellows can be on an MICU or consult rotation prior to completing their orientation
- None
- We are already starting on July 6
- The residencies are in position to start earlier, I favor that so that fellows have time to move and be ready to start fellowship July 1
- Equal treatment of fellows
- Perhaps allow medical licensure to go through
- There will be problems with fellows on J1 visas as there cannot be a break between the end of residency and start of fellowship
- Visa applicants will have difficulty anytime there is any gap whatsoever in residency completion and fellowship start. Federal grants often become effective July 1, which is important for fellows supported by NRSA or T32, etc.

#### 2020 Comments

- I think a move would support wellness for our incoming trainees. Moving, learning a new system(s) within 24 hours is incredibly stressful. I think it would also improve efficiency within the program. Our current first week of July is basically an extension of the year prior while the incoming fellows complete orientation.
- We would be severely hampered by time without fellows from June 30 July xx when fellows arrive.
- Schedule
- Fellows May not have enough time to re-energize adjust to new role, to adapt
- There is no benefit to starting after July 1st. Important to finish orientation before application season starts.
- For us would mainly affect when they actually get onto the services as we do a 3-week boot camp
- potential issues for those who have j-1 visas
- Little benefit; would require overhaul of contracts w GME office to require graduating fellows to graduate later than June 30.
- We barely have enough time to get fellows all the training they need, this just limits it more
- · Research fellows often have coursework that starts the first week in July, so could run into trouble covering services that week
- Lack of manpower for patient care
- better to have in person orientation before start day.
- Difficulty as it would extend an already extended rotation by the existing fellows.
- This would conflict with many funding sources, including NIH, that begin funding years on July 1.
- There is not a way to orient new fellows by July 1 unless they come at least one week prior preferably 2 weeks
- I strongly believe ABIM-IM Residents should take their Board Exam in June of their final year, so it is not hanging over them while they start a new job or training program. Similarly, I favor some staggered start/finish for ABIM-IM Residencies and Fellowships.
- A later start date would be a big problem for trainees on H-1b visas, and could become a deterrent to programs who might otherwise consider them as fellowship candidates.
- There would be hardship covering the gap in the first year of implementation if the start date was moved back. All orientation courses would have to be rescheduled which would be disruptive. The biggest issue regards VISA status and what the legalities are regarding start dates. Internal medicine programs often start their orientation earlier than July 1 but then give their interns time off at the end of the year to make that up. It would seem they could delay that compensation time until the 3rd year.
- It will be better to keep starting date as July 1st because our academic year for Fellowship and for Int Medicine will be the same
- foreign students and visas if too late after July 1 and they finish June 24 at previous training programs
- Our orientation starts on July 1st. Delaying the start date will just delay the orientation and start of the clinical activities
- Fellows don't get trained in EMR to do clinics and in-patient rotations. A few days are just wasted in the paper work and system-based activities. It would be so beneficial if they all can come a week in advance.
- We need time for orientation; and the prior fellows have extended rotations
- Throws off the "block" schedule if starting off cycle
- difficulty-staffing shortage
- Would favor later start date if that was the only way to provide a stretch of time (at least 2 weeks) for transition to fellowship.
- we are a small program, so when our fellows leave and new fellows haven't started, we have 2-3 fellows available for to staff our service lines
- · My second years start classes first week of July so if first years start late. I have a coverage gap
- We do a 3-week orientation for procedures, etc. Starting after 7/1 would make that difficult. However, if there was a move to put ABIM testing into July, I'd be supportive of a later start date
- Benefits: Gives fellows more time to move in, more time to study and perhaps even take the boards before starting fellowship. Difficulty: if on Visa no gaps allowed. Surgery does an August 1st start date. It works well.
- Would advocate for a later start date if fellows would finish their training exactly three years from then. Otherwise, a yearly gap
  of 1-2 weeks would make clinical operations difficult yearly
- Starting in July seems the best strategy in that all residents transitioning to fellowship will have completed their training.
   Furthermore, there is more flexibility for our fellows to graduate from the program in July in terms of maintaining insurance while they transition to work with a start afterwards,
- Visa
- Must be accompanied by earlier IM residency completion date. Very stressful to move across the country and start a new job with no time off in between.
- Issues with physicians on visas must have contiguous employment dates
